

CHRISTMAS MAGIC

Don Gnecco

The magic of the Christmas star
Brought three wisemen from afar
And lives in ev'ry star I see
Top of ev'ry Christmas tree.

And the wonder of that night
I can see in candlelight.
The magic story angels tell
Heard in ev'ry Christmas bell.

The music heard at Christmastime
And the sparkle of my tree
Create Christmas magic
From the glow in me.

When I hear the church bells ring
And the Christmas caroleers sing
The children everywhere I go
Are making angels in the snow.

Instrumental

The glow in every face I see
Reminds me of the child in me.
The wonder of so long ago
In the falling snow.

The music heard at Christmastime
And the sparkle of my tree
Create Christmas magic
From the glow in me.

Candles making windows bright
Remind me of that holy night.
The happiness of girls and boys
Playing with their Christmas toys.

The love I feel this time of year
Is heard in ev'ry carol I hear;
The world is bathed in candlelight
On Christmas night.
