

# Just Believe

Don Gnecco

Just believe, and all the things your heart could want will come to you.  
And then you'll see that all your dreams can come true.  
If you will just believe.

Just believe, and when your path is rocky know you're not alone,  
And you will find a peace that you have never known,  
If you'll just believe.

Open your heart.  
Then let love shine through.  
Just hold onto your dreams,  
Making them come true.

## *Modulation*

Just believe, that when you give your heart and all to all you do,  
That sometime there'll be good things that will come to you,  
If you'll just believe.

Open your heart.  
Then let love shine through.  
Just hold onto your dreams,  
Making them come true.

## *Instrumental*

Open your heart.  
Then let love shine through.  
Just hold onto your dreams,  
Making them come true.

It's something you'll achieve  
If you can just believe.
