

# If We'll Just Believe

Don Gnecco

In ev'ry one of us a light is shining.  
In ev'ry one of us there is room to love.  
The light from inside help us see who we are,  
And soars from the heart like a dove.

In ev'ry one of us things are changing.  
In ev'ry one of us there's a child inside  
Who needs all our hope, understanding and care,  
And all of the love we can provide.

The light from inside shines to make us whole.  
And love brings us joy in many ways,  
If we'll just believe (believe).
