

Since I've Been in Love With You

Don Gnecco

There's a reason why I hang around you, why I love your smile
And since it's meant to be,
I can clearly see that it's all worthwhile,
Since you've been around, I've seen a change in me.

When I'm at my best and thinkin' clearly, I will surely know
When I'm holding you, I wonder if it's true,
Is it really so?
Since I've been in love, Since I've Been in Love With You.

*The moment I met you I know that you would somehow help me see
All of the love that I've locked up inside the deepest part of me.*

Instrumental

*The moment I met you I know that you would somehow help me see
All of the love that I've locked up inside the deepest part of me.*

As the days go by and we're wonderin' why how this dream came true,
I'll remember how I am feelin' now that it all feels new,
Since I've been in love, Since I've Been in Love With You.
Since I've been in love, Since I've Been in Love With You. *(fade)*
