

When I Think of You

Don Gnecco

When I think of you, you're there just
Reaching out to me.
Helping me to recognize the
Life in all I see.

When I think of you, I feel you
Touch me in the night.
Knowing that with you beside me
Things will turn out right.

*When the darkness falls and daylight disappears,
I close my eyes until I see you face appear.*

When I think of you, you're there just
Reaching out to me.
Loving you just makes me see the
Wonder life can bring,
Whenever I think, When I think of You.

Instrumental

*When the darkness falls and daylight disappears,
I close my eyes until I see you face appear.*

When I think of you it seems that
Everything is right.
Knowing that your being here will
Help me through the night.
Whenever I think, When I Think of You.
