

What's Next?

Don Gnecco

What's Next? I don't know what to do.
I'm so confused that I can't see that
What's Next - it could be so incredible -
And I could see my dreams come true.

When I was a child I wondered who I'd be.
Hoping I'd have friends who'd like me just for me.

What's Next? I don't know what to do.
I'm so confused that I can't see that
What's Next - it could be so incredible -
And I could see my dreams come true.

When I stop to think just what my life could be.
I let go of doubt and then I just believe (Believe!).

Modulation

What's Next? I don't know what to do.
I'm so confused that I can't see that
What's Next - it could be so incredible -
And I could see my dreams come true.

Bridge

Day after day, year after year,
Seasons go by. It's not so clear. So,

What's Next? I don't know what to do.
I'm so confused that I can't see that
What's Next - it could be so incredible -
And I can see my dreams come true.
And I can see my dreams come true.
