

Follow Your Star

Don Gnecco

If your heart's aching, if you're in pain,
If you need someone, just call my name.
If you need help, I won't be far.
And if you lose your way, Follow Your Star.

*For I believe in you.
Know someone's with you in all you do.
Hold onto your dreams, just follow your heart.
And one day you'll know just who you are.
Your dreams will come true if you
Follow Your Star.*

I wish you sunshine when skies are gray.
I hope you'll find love along the way.
Things will work out just where you are.
But if you lose your way,
Follow Your Star.

*For I believe in you.
Know someone's with you in all you do.
Hold onto your dreams, just follow your heart.
And one day you'll know just who you are.
Your dreams will come true if you
Follow Your Star.*

*For I believe in you.
Know someone's with you in all you do.
Hold onto your dreams, just follow your heart.
And one day you'll know just who you are.
Your dreams will come true if you
Follow Your Star.
Your dreams will come true if you
Follow Your Star.*
