

I Am Always With You

Don Gnecco

I am always with you; know that I am near.
When your heart is speaking, know that I will hear.
And 'though you cannot see me, know I hear your cry.
My love for you will never change, will never, ever die.

*In the morning dew, in the setting sun,
In each flow'r and in each tree - I'm in ev'ry one.*

I am always with you wherever you may be.
When you need a helping hand, you can count on me.
And as the years go swiftly by, hold me in your heart.
And with the love I'm speaking of we'll never be apart.

*In the morning dew, in the setting sun,
In each flow'r and in each tree - I'm in ev'ry one.*

Modulation

I will always love you, no matter where you are.
I'll be there on mountain tops, in ev'ry shining star.
Just look for me in all you see, in ev'rything you do.
And in the light my love burns bright.
I'll always be with you.
