

Everything Is Possible

Don Gnecco

Everything Is Possible when somebody cares.
Everything Is Possible, knowing that someone's there.
Even in the darkest night, we are not alone.
When the day breaks then we'll have
All the love we have ever known.

Chorus:

And deep down inside we long for someone who cares.
And confidence grows when there's someone who knows,
When somebody sees who we are.

Everything Is Possible with a helping hand.
Everything Is Possible when someone understands.
We need someone who is strong, helping us achieve,
Making all things possible, loving us,
Helping us believe.

Chorus:

And deep down inside we long for someone who cares.
And confidence grows when there's someone who knows that
Everything Is Possible when there's love,
When we just believe.
Everything. We can have it all.
