Just Reach Out

Don Gnecco

I know your heart is heavy, and your world is crumbling around you.
I feel so helpless, and I don't know how to show I care.
It makes me sad when I can't make things better,
But no matter what, I want to say I care.

Chorus:

> *Just Reach Out and take my hand.*
> *Know that I will understand.*
> *In the darkness I will be your light.*
> *Just Reach Out and take my hand,*
> *Know that I will understand.*
> *Just hang on and know you'll be all right.*

Although you cannot see it, there is light there in the distance.
And soon your troubles will be only memories gone by.
And when I look into your eyes there's heartache,
But no matter what, I hope you know I care.

Chorus:

> Just Reach Out *and take my hand.*
> *Know that I will understand.*
> *In the darkness I will be your light.*
> *Just Reach Out and take my hand,*
> *Know that I will understand.*
> *Just hang on and know you'll be all right.*

Bridge:

Just put out your hand when you need a friend,
Or just call and I'll be with you through the night.
Holding someone close will help your aching heart,
And with love somehow you'll be all right.

Chorus:

> *Just Reach Out and take my hand.*
> *Know that I will understand.*
> *In the darkness I will be your light.*
> *Just Reach Out and take my hand,*
> *Know that I will understand.*
> *Just hang on and know you'll be all right.*

Modulation
Repeat Chorus
