

Since I've Found You

Don Gnecco

I see wonder in the morning sky.
And I feel happy, but I don't know why.
And with ev'rything I see or do,
I've seen them all since I've known you.

Ev'ry time my troubled heart feels sad,
I think about the loving moments we've had.
I see sunshine in the morning dew.
I've found love since I've known you.

*I've found a new love since I've known you.
I've seen a new side in all I do.
All of my dreams are coming true,
I know a new me Since I've Found You.*

I try to look inside to find my way.
It helps me more than anything you say.
I've seen love and I know it's true.
I know myself Since I've Found You.

*I've found a new love since I've known you.
I've seen a new side in all I do.
All of my dreams are coming true,
I know a new me Since I've Found You.*
