

When the Shadows Turn to Night

Don Gnecco

When you feel your heart is breaking,
When you cannot sleep at night,
Just be still and close your eyes--
Something makes you realize
Just how much you need a friend,
When the Shadows Turn to Night.

When the crazy world around you
Leaves you sad and feeling scared,
Though you feel you'll fall apart,
You may find a loving heart.
And you'll long to have her (him) near
When the Shadows Turn to Night.

When you can't avoid the pain,
Know that you'll find love again.
Somehow things will be all right--
When the daylight fades,
And the darkness falls,
When the Shadows Turn to Night.

When you don't know who to turn to,
When you need someone to care,
Just turn 'round, I'm at your side.
When you think that love has died
Know that I am standing near
When the Shadows Turn to Night.

When your candle flickers wildly,
When you think you'll lose your light,
Close your eyes and I'll be there.
Know that I will always care.
I am here at your side
When the Shadows Turn to Night.

Instrumental

When the daylight fades,
And the darkness falls,
When the Shadows Turn to Night.
