

# With One Voice

Don Gnecco

When we care about each other, 'round the world from sea to sea,  
We can make a difference; it can start with you and me.  
When we look beneath the surface, when there's nothing left to hide,  
When we set aside our differences, we'll see the love inside.

*Chorus:*

*By joining hearts and hands we'll try to understand.  
With One Voice we'll sing a song of peace.  
By joining hearts and hands we'll try to understand.  
We're singing, we're singing, we're singing!*

When our world becomes more friendly, when we trust that all are one,  
We will make a difference when the healing has begun.  
When we pause to say, "I love you," and extend a friendly hand,  
When we set aside our differences, we'll maybe understand.

*Chorus:*

*By joining hearts and hands we'll try to understand.  
With One Voice we'll sing a song of peace.  
By joining hearts and hands we'll try to understand.  
We're singing, we're singing, we're singing!*

*By joining hearts and hands we'll try to understand.  
With One Voice we'll sing a song of peace.  
By joining hearts and hands we'll try to understand.  
We're singing, we're singing, we're singing With One Voice!*
