

# It's Christmas Time

Don Gnecco

It's Christmas Time, It's Christmas Time,  
My favorite time of year.  
All the lights aglow and the children know  
That love and joy are in the air.

It's Christmas Time, It's Christmas Time,  
There's love and laughter everywhere.  
All the children know, now it's time to show,  
There's still good will and peace to share.

Every voice and every smile makes the season gay.  
And the children see with every Christmas tree  
That Santa's really on his way.

*It's Christmas time, It's Christmas Time.  
See the candles glow.  
Our hearts are light and the season's bright,  
For Christmas time means love.*

Every voice and every smile makes the season gay.  
And the children see with every Christmas tree  
That Santa's really on his way.

*It's Christmas Time, It's Christmas Time.  
See the candles glow.  
Our hearts are light and the season's bright,  
For Christmas time means love.*
