

Sometimes Dreams Come True

Don Gnecco

All through my life I hoped I'd find someone like you.
You've helped me see myself anew.
But I still believe sometimes dreams come true
When the chips are down you know what to say.
When I can't see where to go, you help me find the way.

When I first met you I tried to catch your eye.
It didn't work, I don't know why.
But I still believe sometimes dreams come true
When the chips are down you know what to say.
When I can't see where to go, you help me find the way.

The years we've had together really have been kind.
No better partner would I find.
But I still believe sometimes dreams come true
When the chips are down you know what to say.
When I can't see where to go, you help me find the way.

I've always know that there is someone up above
Who watches over me with love.
But I still believe sometimes dreams come true.
When the chips are down you know what to say.
When I can't see where to go you show me the way.

When I see the best in everything I do,
When I believe with all my heart I can make my dreams come true.
