

Reflections

Don Gnecco

That you see what I see helps make things right.
The person inside me walks in the light.
No mountains or valleys, or even the sea
Will keep me from knowing me.

That you hear what I hear makes my heart sing;
A voice deep inside me is that which I bring.
Your words of encouragement, spoken just right
Encircle me with the Light.

*We see in each other what each needs to see.
To be in that place where each needs to be
And all that we're learning, it all feels so right.
Merely reflections, Reflections of the light.*

That you know that I know
That way down inside a bright light is burning, my internal guide.
Connections to you and all that I see
Is a miracle in me.

*We see in each other what each needs to see.
To be in that place where each needs to be
And all that we're learning, it all feels so right.
Merely reflections, Reflections of the light.*
