

You're There

(You Are My Friend)

Don Gnecco

You're There whenever I need you.
You're There for me night or day.
Beside me, always encouraging,
To help me find my way.

You're There when things don't go smoothly.
'Though they always work out in the end.
I know that it all goes much easier
When I have the help of my friend.

*When I need someone to care for me,
Be with me all through the years.
It's you I can call on anytime
Whenever I need someone near.*

You're There for me when I work hard,
Cheering me on day to day.
You listen, you hear me, you're my good friend,
You always know what to say.

*When I need someone to care for me,
Be with me all through the years.
It's you I can call on anytime
Whenever I need someone near.*

You're There whenever I need you
You're There for me in the end,
I know that my life is much richer by far
Because you are my friend!
