

You Were Always There

Don Gnecco

From atop the mountain we see our world below.
Life unfolds before us, gentle breezes blow.
Looking up to the sky where the eagles soar,
I feel things I've never felt before.

Atop the highest mountain in a place we know
Warmth from love and wisdom touches all below.
Looking up to the sky where the eagles soar,
I feel things I've never felt before.

Chorus:

From the highest place now it's all so clear.
You were there supporting me, You Were Always There.

From the highest place now it's all so clear.
You were there supporting me, You Were Always There,
Always there.

Modulation

From the highest place now it's all so clear.
You were there supporting me, You Were Always There.
You were always, You Were Always There.
You were always, You Were Always There.
