

All the Stars in the Heavens

Don Gnecco

All the Stars in the Heavens light up the sky
As they must have been seen on that first Christmas night.
Lighting the darkness, guiding the way,
To right where the Christ child lay.

*High in the heavens they saw a bright star.
Shepherds and wise men, they came from afar.
There, o'er the manger that first Christmas night
All the Stars in the Heavens shone bright.*

Who knew that the child would grow up to be King?
And that He'd be the Light, of whom angels would sing?
All of this wonder touching our hearts,
Each year at Christmas time.

*High in the heavens they saw a bright star.
Shepherds and wise men, they came from afar.
There, o'er the manger that first Christmas night
All the Stars in the Heavens shone bright.*

Modulation

All the Stars in the Heavens this time of the year
Are there to remind us that God's love is near.
That ancient story of that holy night,
When the stars in the heavens shone bright.

*High in the heavens they saw a bright star.
Shepherds and wise men, they came from afar.
There, o'er the manger that first Christmas night
All the Stars in the Heavens shone bright.
All the Stars in the Heavens shone bright.*
