

# When We're Together

Don Gnecco

When we see the light in each other;  
I see the sparkle, the light that's in your eyes.  
And when you're smilin' my whole world seems brighter.  
Your light and my light,  
We can light up the sky.

When I hear the sound of laughter  
The happy voices, a chorus of kids at play.  
And when I'm with you the world is a better place.  
When we're together  
It's gonna be a brighter day.

*When we're side by side, with your hand in mine,  
We can do anything.  
You and me, with what we can do,  
Everything will be just fine.*

Together, together we will face the light.  
Together, we'll take on the world to make it right.  
And when you're smilin' my whole world seems brighter.  
When We're Together we can light up the sky.

## *Instrumental*

And when you're smilin' my whole world seems brighter.  
When we're together we can light up the sky.

*When we're side by side, with your hand in mine,  
We can do anything.  
You and me, with what we can do,  
Everything will be just fine.*

Together, together when you're here beside me  
I know that all in the world can be mine.  
And when you're smilin' my whole world seems brighter.  
When We're Together we can light up the sky.

Together we'll be fine.  
Together we'll be fine.  
Together we'll be fine.  
Together. (fade)
