

We Are Always There (For Each Other)

Don Gnecco

In the sunshine, on the bright days, we are always there for each other.
When I'm happy, when my heart soars, you are always there.
You are always there beside me, lifting me high.
You see the best in me, reaching for the sky.

*Somehow, I've come to know from somewhere above
The way we'll make it through is by having love for each other.*

On the dark days, when the clouds form, we are always there for each other.
In the sad times, when my heart breaks, you are always there.
You are always there beside me, holding my hand.
You're right there telling me that you understand.

*Somehow, I've come to know from somewhere above
The way we'll make it through is by having love. (It's love.)*

Modulation

In the good times, in the hard times, we are always there for each other.
In the glad times, in the sad times you are always there.
You are always there beside me, holding my hand.
You're right there telling me that you understand.

*Somehow, I've come to know from somewhere above
The way we'll make it through is by having love for each other.*

Through it all we know we'll make it
When we know there's love in each other's heart.
