

# Together We Are One

Don Gnecco

When everybody sings as one, when every voice is heard,  
When every heart is open wide, together we'll spread the word.  
When everybody joins in song, together in harmony,  
No matter the place we say we're from,  
No matter our history.

When every voice is part of the song, when all can feel the beat.  
Then everyone is part of the group, making it all complete.  
When everybody feels a part, coming together in song,  
No matter how different we may be,  
Everyone sings along (along).

## *Modulation*

When everyone can open their hearts, when everybody sings,  
When we can hear each other's voice, then we can sing anything.  
Together we can work miracles, together we know we are strong.  
Together we sing in harmony, together we all belong.

Our hearts are filled with song; we lift our voices high.  
Together we will raise our voice: together we are one.  
Together we will raise our voice: together we are one.
