

There's A Place in My Heart

Don Gnecco

There's a place in my heart that I've made just for you.
It's the place where I hold all my memories, too.
It's the place where I go when I'm feeling blue.
It's the place where I know I'm with you.

There's a place in my heart where I'm longing for you.
It's the place where I keep all the things that I do.
It's the place where I go when I'm feeling blue.
It's the place where I know I'm with you.

*Through all these years we've made it through.
And through the laughter and tears
I'm so in love with you.*

Modulation

There's a place in my heart that is here just for you.
It's where I know I can see things anew.
While the path may seem long, know the end's now in view,
And that I'll be here waiting for you.

*Through all these years we've made it through.
And through the laughter and tears
I'm so in love with you.*

There's a place in my life; it's a place that I'm holding for you.
There's a place in my life just for you.
