

We Lift Our Voices High

Don Gnecco

In cities and in towns all across our land
We stand together side by side; neighbors holding hands.

In ev'ry single heart, from someplace deep inside
Is a light that shines for all to see, when our hearts are open wide.

*We lift our voices high on this very special day.
As our voices grow, our pride will show all across the U.S.A.*

When ev'rybody sings together in one song,
We put strife aside and join our hearts, for together we are strong.

*We lift our voices high on this very special day.
As our voices grow, our pride will show all across the U.S.A.*

*We lift our voices high on this very special day.
As our voices grow, our pride will show all across the U.S.A.
As our voices grow, our pride will show all across the U.S.A.*
