Joyfully, We Sing

Don Gnecco

Joyfully, we sing, with an open heart;
Blending voices, we will sing as one.
Gratitude in mind, love will help us find
Gratefulness in all we see and do.

As we sing our part, music fills our hearts,
Letting all the loving light shine through.
Love, when expressed in song,
Calls us to belong and sing as one.

Listen to our song, come and sing along;
Add your voice and sing in harmony.
Thankfulness in mind, love will help us find
Gratitude in all we see and do.

As we sing our part, music fills our hearts,
Letting all the loving light shine through.
Love, when expressed in song,
Calls us to belong and sing as one.

Modulation

Joyfully, we sing, with a grateful heart,
Knowing we need never stand alone.
Spirits soaring high, seem to touch the sky,
Helping us be all that we can be.
Joyfully, we sing in unity.
