

We See Blessings in Our Lives

Don Gnecco

We're told we should be grateful,
To be thankful for all we have.
And in gratitude we are grateful
For all the people in our lives.
We need to count our blessings
And be grateful ev'ryday;
And now we know we see blessings flow
In so many, many ways.

*We see blessing in our lives when we open up our eyes.
And it all starts with an open heart,
In many wond'rous ways!*

When in our lives we're challenged,
It is so hard to recall
That it's gratitude that fills our heart,
Heals our spirit after all.
We need to count our blessings
And be grateful ev'ryday;
And now we know we see blessings flow
In so many, many ways.

*We see blessing in our lives when we open up our eyes.
And it all starts with an open heart,
In many wond'rous ways!
(Wond'rous ways!)*

*We see blessing in our lives when we open up our eyes.
And it all starts with an open heart,
In many wond'rous, many wond'rous ways!
We see blessings in our lives!*
